

FinTech Division

TECHNOLOGY INNOVATION

Blockchain Reporting. AI Estate Modeling. REIT Forecasting Tools.

DIVISION OVERVIEW

The FinTech Division leads EH Capital Group's technology innovation agenda, developing and deploying cutting-edge financial technology solutions that power the organization's 15-division ecosystem. From blockchain-enabled reporting and AI-driven estate modeling to REIT forecasting tools and CRM analytics, this division ensures that EH Capital operates at the forefront of financial technology.

KEY METRICS

| | |
|---|--|
| CRM, Dashboard, Blockchain Technology Platforms | Estate Modeling, REIT Forecast AI Tools Deployed |
| Cybersecurity & Privacy Compliance Security Framework | All 15 Divisions Supported |

CORE RESPONSIBILITIES

- Lead platform development, cybersecurity, and CRM analytics infrastructure
- Deploy blockchain-enabled reporting systems for transparent financial tracking
- Develop AI-driven estate modeling and REIT forecasting tools
- Manage data security, privacy compliance, and technology governance
- Build and maintain client-facing digital platforms and dashboards
- Coordinate with all divisions on technology integration and digital transformation

FEATURED PROGRAM

FEATURED PROGRAM

EmpowerEquity Portfolio Initiative

The FinTech Division's technology infrastructure is the digital backbone of the EmpowerEquity Portfolio Initiative. AI-powered tools, blockchain reporting, and real-time dashboards enable EH Capital to deliver transparent, data-driven wealth management services at scale — empowering clients with the information they need to make confident financial decisions.

STRATEGIC GOALS

- Launch a proprietary client wealth management app by FY 2026
- Deploy blockchain-verified reporting for all client portfolios
- Develop an AI-powered financial planning tool for community members
- Establish a FinTech Innovation Lab for emerging technology research
